

ADAPTED SOCIALCARBON® INDICATORS

1. Identifying the Project

Project name: Implementation of energy-efficient lighting system in the Donetsk Region with the use of Kyoto Protocol mechanism: replacement of incandescent lamps with energy-efficient ones at budget financed and social entities

Person responsible for reviewing or adapting the indicators (name and contact): Dr. Karla Alcantar Sanchez, Am Grauen Stein, 51105 Cologne, Germany, k.alcantar@gmail.com, Yuriy Lozynskyy, yuriy.lozynskyy@de.tuv.com

Version/Date of indicator to be reviewed or adapted: Indicators for Efficient Lighting PoA and Bundled Projects Version 1.0, September 2011

2. Approval Process

Person responsible for approval of the indicators (name and contact): Cecilia Michellis | Instituto Ecologica | SOCIALCARBON officer | cecilia@socialcarbon.org

Date of approval: 19/09/2011

3. Indicators to be excluded

Please specify the indicators that will be excluded:

Name of the indicator	Justification for excluding the indicator
- Product supply and service providers	Project developer does not consider this indicators as relevant, because: There is no risk of lack of supply of the eligible productizes,
- Selection of suppliers	Project developer does not consider this indicators as relevant, because: It is a JI project, and there is no significant risk of non-conformity of the suppliers with labor and environmental laws.
- Quality of the CFLs/LEDs	Project developer does not consider this indicators as relevant, because: Quality of the lamps will be indirectly monitored considering the performance of the project.
- Management costs for waste treatment (1)	I would advise to delete this indicator for following reasons: costs occurred due to the treatment of waste do not impact the sustainability of the project as soon waste utilization is organized in appropriate manner , which

	is described by previous indicator), and thus the indicator is not relevant on my mind. In addition, there is no criteria on how to measure that the costs for waste treatment are high or low- no benchmark exist.
